About Me

I'm Sujan Ban, a full-stack developer focused on the MERN stack (MongoDB, Express.js, React.js, Node.js). I build dynamic web applications with engaging interfaces and robust backends. Committed to clean code and continuous learning.

Experience

Okay Journey | 2021

Frontend Developer Intern

- Developed responsive user interfaces with React js and Tailwind CSS.
- Enhanced functionality using JavaScript for interactive components.
- Collaborated with designers and backend developers for seamless integration.
- Participated in code reviews to ensure quality and maintainability.
- Contributed innovative ideas in team meetings for product improvement.

Projects

Collab - The Premier Crowdfunding Platform

- Developed a crowdfunding charity website using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Integrated Stripe for secure payment processing.
- Skills: React.js, MongoDB, Tailwind CSS, Express.js, Node.js, Stripe.

Realesto - A Real-estate Marketplace

- Built a web app for buying and selling real estate properties.
- Utilized Laravel for backend development, MySQL for database management, and Tailwind CSS for front-end styling.
- Skills: Laravel, MySQL, Tailwind CSS, JavaScript.
